

Major Map: Civil Engineering Bachelor of Science in Engineering (B.S.E.) Molinaroli College of Engineering and Computing

Department of Civil & Environmental Engineering Bulletin Year: 2025-2026

This course plan is a recommended sequence for this major. Courses designated as critical (!) may have a deadline for completion and/or affect time to graduation. Please see the Program Notes section for details regarding "critical courses" for this particular Program of Study.

Semester One (17 Credit Hours) ENCL 101 Citical Reading and Composition 3	Neter	Burnandalta.		Program	Min.	Credit

Graduation Requirements Summary

Minimum Total	Minimum Major	College & Program	Minimum	Minimum
Hours	Requirements Hours	Requirements Hours	Carolina Core Hours	Institutional GPA
124	25	65-71	34	

- 1. Regardless of individual course grades, students must maintain a minimum 2.00 cumulative GPA.
- 2. Some colleges require a minimum GPA for major courses. Courses indicated in this column are included in the Civil Engineering program GPA of
- 3. Students who place into MATH 115 will be required to successfully complete it before taking MATH 141.
- 4. The Carolina Core provides the common core of knowledge, skill and academic experience for all Carolina undergraduate students.
- 5. Foundational Math Elective (3 hours): MATH 241, 300, 344.
- 6. Basic Science Elective (3-4 hours): BIOL 110, 270; ENVR 101, 321; GEOL 101, 103; MSCI 210, 215.
- 7. Foundational Math/Science Elective (3-4 hours): additional course from Foundational Math Elective category, CHEM 112 & 112L, PHYS 212 & 212L.
- 8. ECIV Laboratory Courses (2 hours): ECIV 303L, ECIV 330L, ECIV 340L, ECIV 350L, ECIV 362L.
- 9. **ECIV Distribution Electives (12 hours):** One course from 4 of the following 5 areas: <u>ENVironmental</u>: ECIV 551, 555, 556, 557, 558; <u>Geotechnical</u>: ECIV 530, 531; <u>Structural</u>: ECIV 325, 327 (C or better in ECIV 320 required); <u>Water Resources</u>: ECIV 560, 562, 563; <u>Transportation</u>: ECIV 540,541, 542, 580
- 10. ESM (Engineering, Science, or Mathematics) Electives (12-14 hours): additional courses from Foundational Math Electives category, Foundational Math/Science Elective category and Basic Science, additional ECIV courses 300-level and higher (not already taken to fulfill the ECIV Distribution Elective requirement), BIOL 101, 102, 250 and higher; BMEN 212 and higher; CHEM 118 and higher; CSCE 106, 145, 146, 201, or 211; ECHE 300 and higher; ECIV 210 or ENCP 210; ELCT 220, 221 and higher; EMCH 290 and higher (not 360); ENCP 290 and higher (not 360); ENVR 331, 501 or 533; GEOG 347 or 563; GEOL 302 and higher; ITEC 233 and higher; MATH 520, 521, 544, 550; MSCI 305 and higher; NAVY 201, 202, 301; PHYS 291 and higher; STAT 511, 512, 513, 516, 520, 587.
- 11. Career Electives (6-8 hours): additional courses from Foundational Math Elective category, Foundational Math/Science Elective category, Basic Science category, and ESM Elective category, additional ECIV courses 300-level and higher, or ACCT 222, ECON 224, FINA 333, MGMT 371, MGSC 290. MKTG 350.
- 12. Students in the College of Engineering and Computing are required to demonstrate proficiency in one foreign language equivalent to the 121 course by 1) a score of two or better on the foreign language placement test; or 2) completion of the 109 and 110 courses in FREN, GERM, LATN, or SPAN or completion of the 121 course in another foreign language. Students who do not place out of the GFL requirement may need to take additional hours to meet this requirement.

Program Notes:

- Courses identified as "critical" must be completed by the semester in which they are listed in order to ensure a timely graduation due to prerequisite requirements for subsequent required courses.
- All undergraduate students must take a 3-credit course or its equivalent with a passing grade that covers the founding documents. This course may
 fulfill any requirement in the program of study. Courses that meet this requirement are listed in the academic <u>bulletin</u>.
- A student cannot repeat courses from the College of Engineering and Computing in which they earned a grade of C or better. In addition, a student cannot repeat any course from the College a second time. No more than four courses from the College of Engineering and Computing may be repeated in order to satisfy the requirements for any degree from the College, regardless of satisfactory work. For this purpose, withdrawal from a course with a grade of **W** is not regarded as enrollment in that course. A student that does not satisfactorily complete a degree-required College course within two attempts must change major or transfer out of the College of Engineering and Computing.
- A concentration in Environmental Engineering, Geotechnical Engineering, Structural Engineering, or Water Resources Engineering is available to students majoring in civil engineering. More details are available in the Bulletin.
- The last 25% of a student's degree must be completed in residence at the University, and at least half of the hours in the student's major courses and in the student's minor courses (if applicable) must be taken at the University.
- Disclaimer: Prerequisites on courses are subject to change. Please refer to Bulletin.

University Requirements: Bachelor's degree-seeking students must meet Carolina Core (general education) requirements. For more information regarding these requirements, please visit the Carolina Core page on the University website.
