**Graduation Requirements Summary** 

Minimum Total Hours	Minimum Major Requirements Hours	College & Program Requirements Hours	Carolina Core Hours	Minimum Institutional GPA
120	24	50-62	34-46	2.000

- 1. Regardless of individual course grades, students must maintain a minimum 2.000 cumulative GPA.
- 2. Some colleges require a minimum GPA for major courses. Courses indicated in this column are included in the major GPA for this program of study.
- 3. Students who place into MATH 115 will be required to take it before proceeding to MATH 141.
- 4. The Carolina Core provides the common core of knowledge, skill and academic experience for all Carolina undergraduate students.
- 5. Students in the College of Arts and Sciences are required to demonstrate proficiency in one foreign language equivalent to the 122 course through course credit or the corresponding foreign language placement score.
- 6. MATH Major Electives (15 hours): A complete list of approved Mathematics major electives, as well as guidelines for selecting 500-level MATH electives, are available in the Bulletin. Undergraduate students interested in taking 700-level MATH courses as MATH elective credit should consult the Graduate Bulletin
  - a. At least one course from the following: MATH 511, 520, 528, 529, 534, 550, 552, 572.
  - b. At least 12 hours of MATH electives numbered 500-599.
- 7. The College of Arts and Sciences requires one U.S. History and one non-U.S. History course, both of which must be chosen from the approved Carolina Core GHS courses. Whichever is not fulfilled through the Carolina Core GHS requirement must be fulfilled through this college requirement.
- 8. The cognate is intended to support the course work in the major. The cognate must consist of twelve hours of courses at the advanced level, outside of, but related to the major. In place of a cognate, a student may choose a minor consisting of at least 18 credit hours of courses concentrated in one area that follow a structured sequence. All minor courses must be passed with a grade of C or higher. For B.S. degrees, grades of D are acceptable for completion of the cognate requirement. A second major eliminates the minor/cognate requirement.
- 9. No courses of a remedial, developmental, skill-acquiring, or vocational nature may apply as credit toward degrees in the College of Arts and Sciences. The College of Arts and Sciences allows the use of the Pass-Fail option on elective courses. Further clarification on inapplicable courses can be obtained from the College of Arts and Sciences.

## **Program Notes:**

- Courses identified as "critical" must be completed in the student's first 60 semester hours of work in order for these courses to be credited toward graduation.
- All undergraduate students must take a 3-credit course or its equivalent with a passing grade that covers the founding documents. This course may
  fulfill any requirement in the program of study. Courses that meet this requirement are listed in the academic bulletin.
- All course prerequisites must be met with a grade of C or better.
- A student may enroll in each MATH course a maximum of two times. (Enrolled in a course is interpreted to mean that a grade, including W or WF, has been recorded.) A student may repeat a maximum of three MATH courses. (Receiving a grade of W is not to be considered a repeat.)
- Graduation with "Distinction in Mathematics" is an optional program of study, in which students actively engage in significant research, scholarship, and/or performance activities in collaboration with a faculty mentor within a chosen major. Graduation with Distinction for this program of study requires: 1) a minimum major GPA of 3.6 in upper division (500 and above) major courses, 2) a minimum cumulative GPA of 3.30, 3). three credit hours of MATH 499, 4) 12 hours of upper-level (500 and above) MATH approved by the Undergraduate Director beyond the 24 credit hours of 500-level MATH courses required by the B.S. in Mathematics, and 5) a senior thesis. Further details on graduation with "Distinction in Mathematics" may be found on the Bulletin
- Students who wish to pursue an actuarial science focus should take MATH 511 in the second year, with STAT 512 immediately following.
- For the College of Arts and Sciences STEM Enhancement Scholarship, at least 14 credits of Math or Science must be completed in the first year, including any AP, IB, or dual enrollment credit.
- The last 30 credit hours toward your degree and half of the major must be earned in residence at the University of South Carolina-Columbia.

University Requirements: Bachelor's degree-seeking students must meet Carolina Core (general education) requirements. For more information regarding these requirements, please visit the Carolina Core page on the University website.
